MUSIC THAT MAKES YOU FEEL ALIVE.

Sleeping Guns 2.5D band portrait. Video and matching still included in the downloads.

Sleeping Guns is a three piece rock band from Manchester, featuring Matt Scott on vocals and rhythm guitar, Lee Jones on bass and Dale Atkinson on drums. Heavy riffs, strong melodies and a grungy edge shape their sound, with influences ranging from Black Sabbath and Led Zeppelin to Nirvana, Pearl Jam and Rival Sons.

The three share a history in Gunrunner, which ran on and off for more than 15 years through several line ups. With Matt the last original member, it felt like the right time for a fresh start. The name changed. The chemistry carried on.

Sleeping Guns brings that experience into something new, driven by the enjoyment of playing together and writing music that makes you feel alive.

Their debut single, Pretty Blind, is coming soon.
